

The Constitution of the United States and the State of Alabama requires a new trial, a new sentence proceeding and or other relief if you are denied effective assistance of counsel.

On January 21, 2007

During my sentencing hearing Mr. Kevin Butler allowed my Parents and one of my sisters Valerie Hasty to speak and he focused on my childhood experience and neglected what issues were at hand as my adult hood that was to deal with me getting student loans, writing stolen checks & paying the checks back that I wrote with the state. Judge Thompson asked questions concerning my criminal activity that the people on stand had no answer or idea. On the other hand Lawrence Taylor my son; who was subpoenaed to court, Anthony Wilson and Leandra Wilson, Monica Banks are aware of the questions asked but was not given an opportunity to speak. Which was against my request I made to my lawyer.

Judge Thompson made a statement in court that my parents and sister testimony had an impact on his decision. Being denied the opportunity to have my son, brother, Monica Banks and Relanda Wilson speak on my behalf deprived me of my rights, the result of their testimony would have had a positive effect and the results would have been different if they were given an opportunity to speak in court.

Once I signed the Plea Agreement I was not aware of the Court proceedings thereafter. My lawyer mentioned twelve <sup>months</sup> eighteen months. Furthermore my rights were not fully explained and understood from my lawyer. Mr Butler also advised me of the different motions I could file with the Courts.

I filed the Motion under good cause that the courts would hear and allow my Petition of Relief be heard. I pray the courts allow me to be relieved of my sentence.
